Judgment · Handover · Pain point · Document · Minor repair route · Tool runs the step · Tool present, not deciding

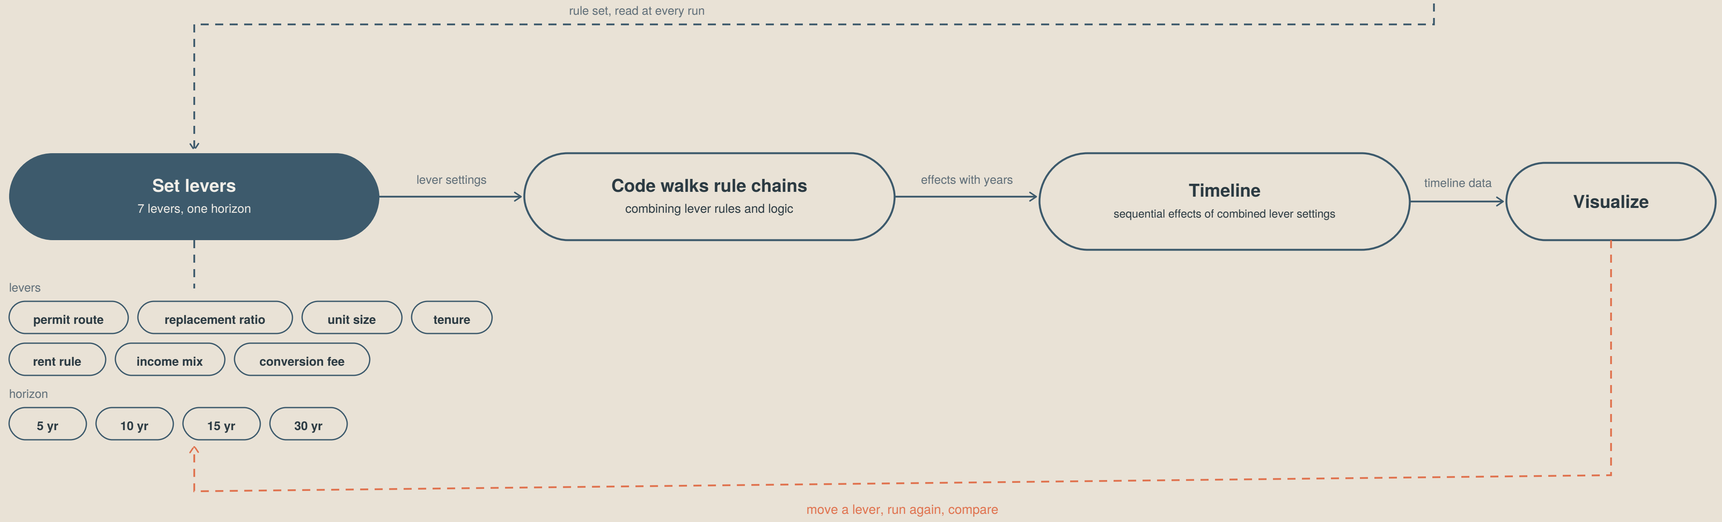

BEFORE THE RUN

rules are made once

THE RUN

every time a lever moves

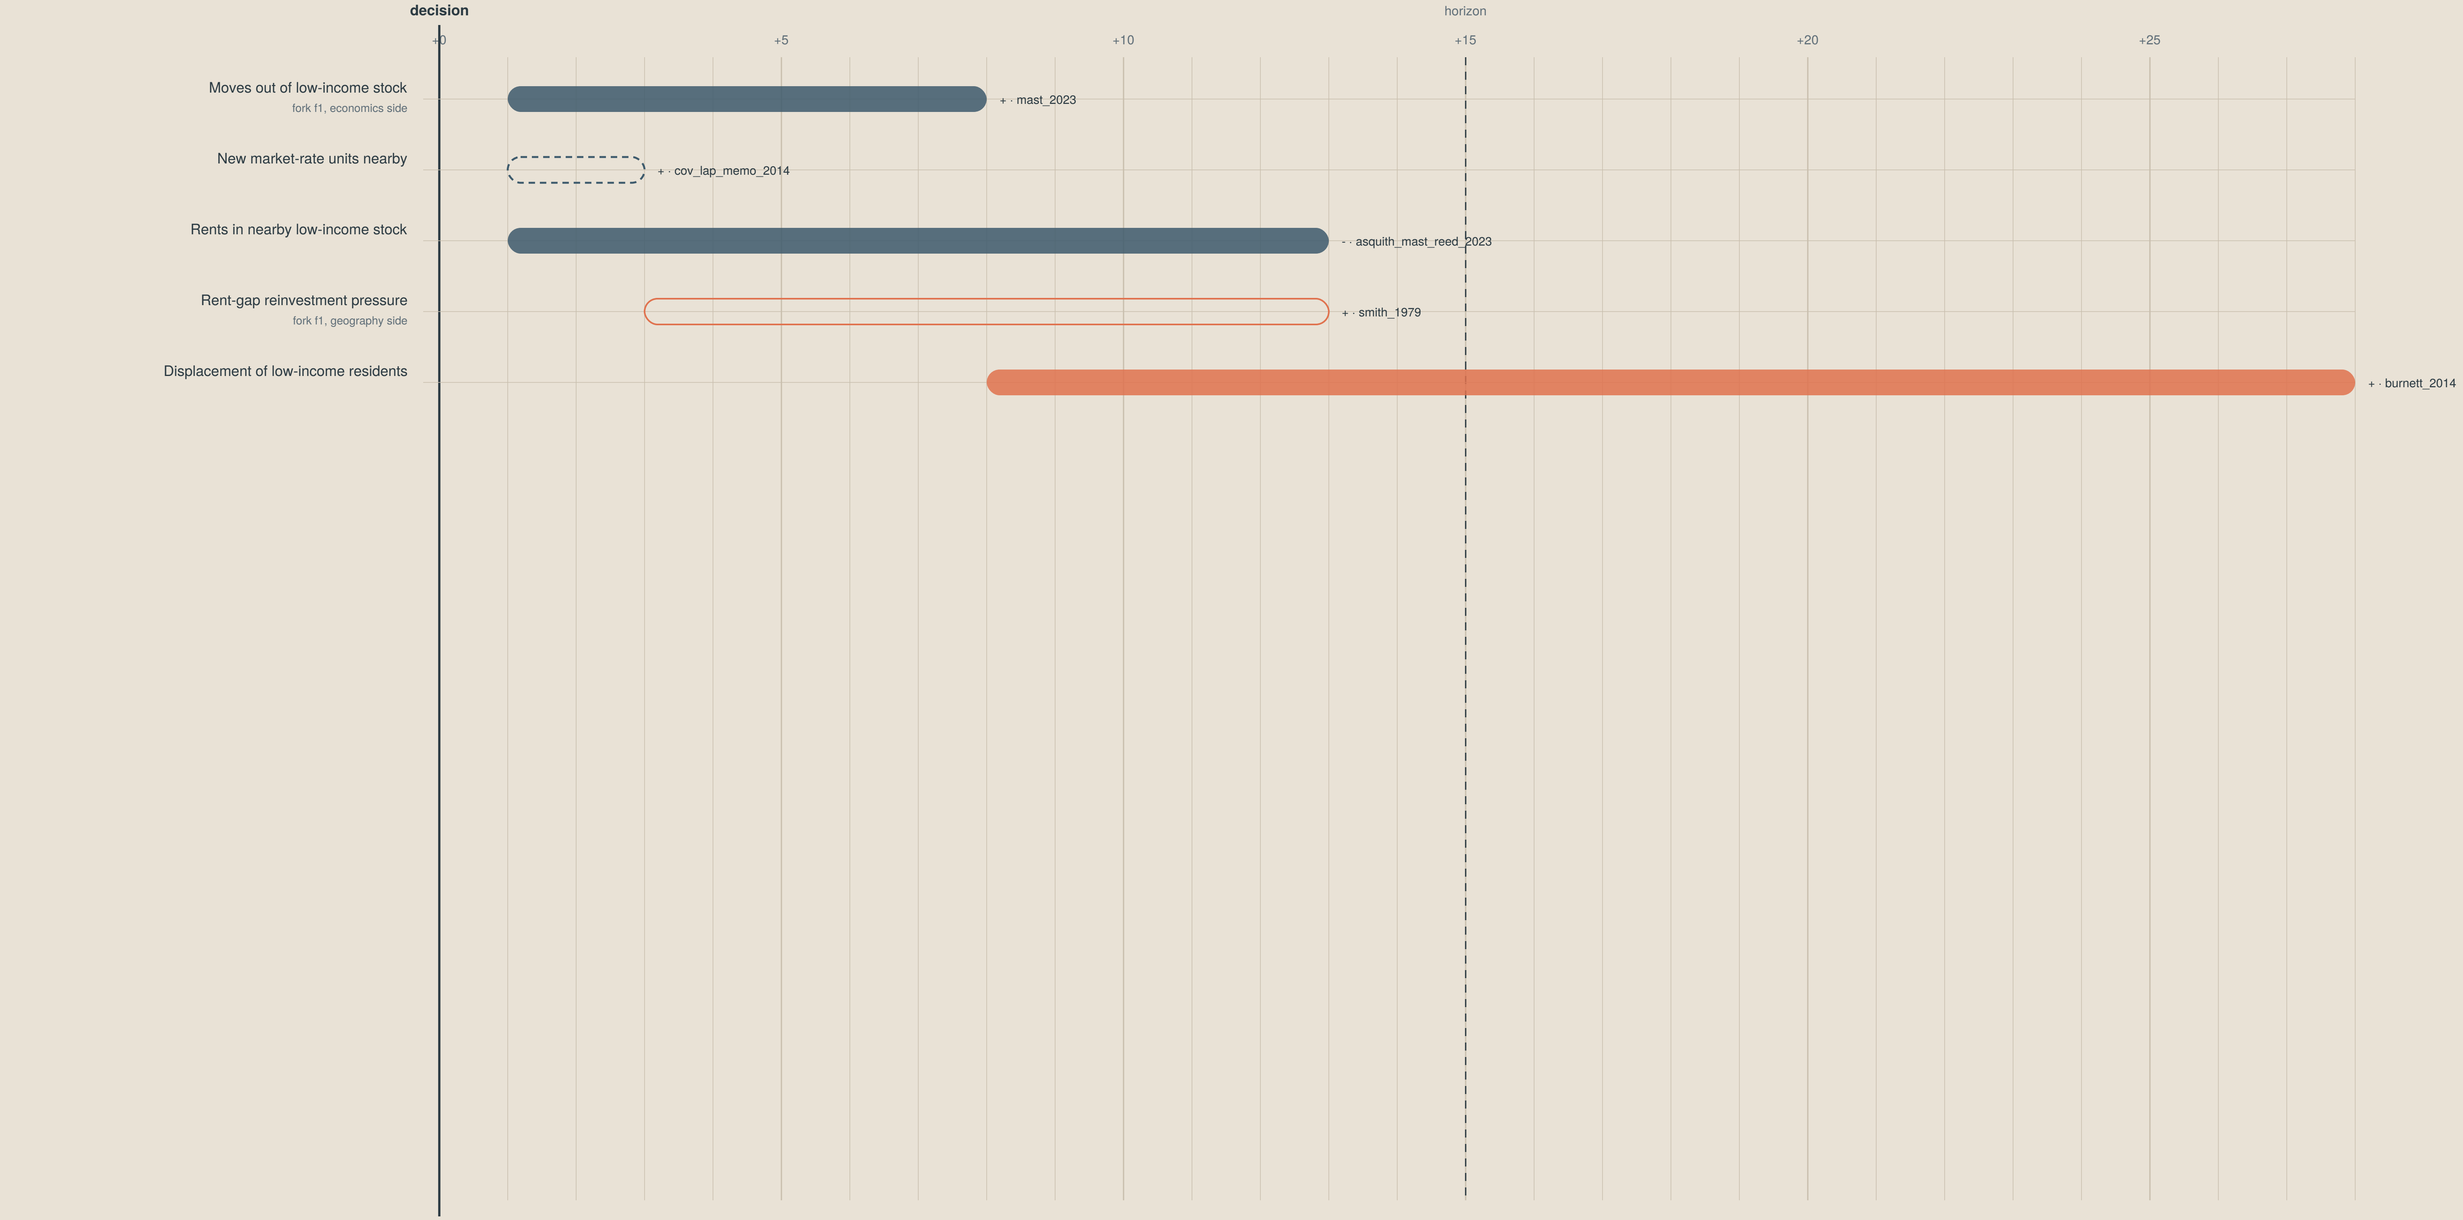

person · code · model · code check or person review · file or data passed · loop

Stop nodes return control to the person with a question, never with an answer the tool made up.

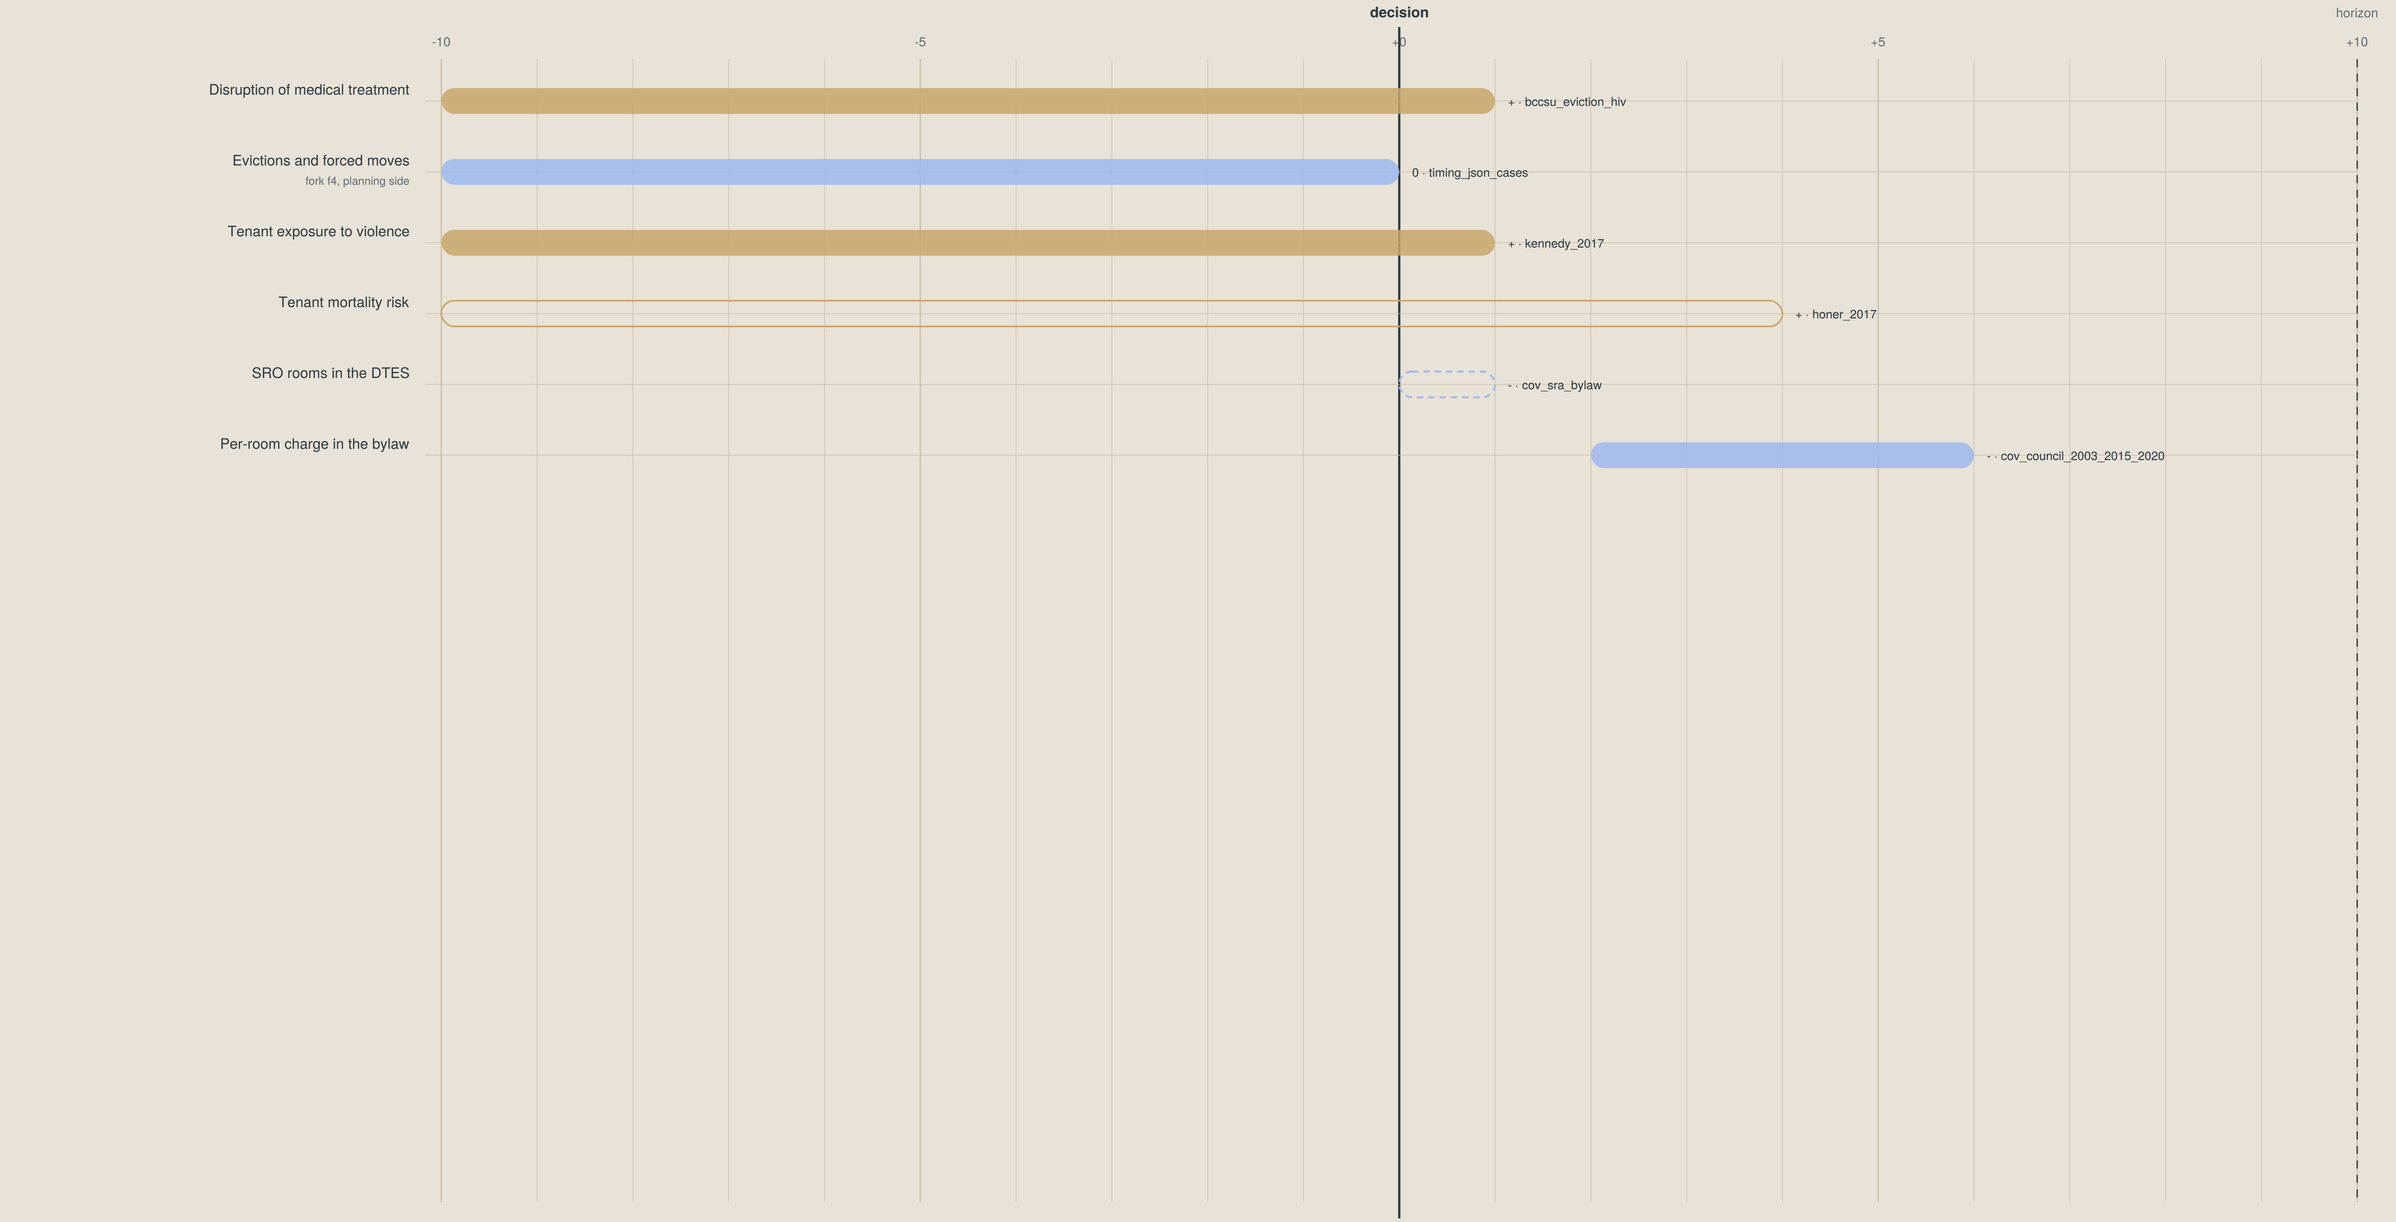

replacement_ratio = partial

horizon 15 years · 5 effects · 0 land before the decision · direction and timing only, no magnitudes

conversion_permit = allow

horizon 10 years · 6 effects · 4 land before the decision · direction and timing only, no magnitudes

economics · geography · planning · health · architecture · mechanism · theory · observation, thicker is stronger

+ raises the outcome · - lowers it · 0 holds it · source id on every bar
